

# ROHIN RAMACHANDRA

Special Assistant  
Digital Insights Ventures

---

## PROFESSIONAL SUMMARY

Rohin has more than a decade of experience playing football at a high level. He has represented the Singapore National Youth Football team throughout this time, playing in tournaments in Asia and Europe. He was notably awarded the Most Respectful Player Award by a Committee of Referees and International Coaches at the FC Bayern Youth Cup Championship during trials held in Singapore amongst over 400 other players. He was selected consistently and almost exclusively as the designated team spokesperson in relation to media interviews/player representations. During his time in the United Kingdom playing for Gordonstoun School, he successfully displayed a team-before-self philosophy by reconstituting his football playing style in an effort to contribute to the team's football success. From playing as a forward to playing as a left-back where greater communication with fellow players and encouragement was needed. In addition to this, he was appointed as the Football and House Captain in his second year and was the double recipient of the Gordonstoun Gajral Excellence in Football Award.

Rohin has consistently been both in the service of others, especially those in disadvantaged situations and experiencing difficulties in their lives. At the beginning of the worldwide COVID-19 pandemic, he looked at how he could be of service remotely and started a fundraising initiative marrying his digital online business, Rojo Collective, with action on the ground initiatives, creating awareness and raising funds to alleviate the burden of the pandemic on an often overlooked community of foreign workers in Singapore. Rohin has been learning valuable things by supporting his father with Digital Insights and continues to gather great knowledge in the digital spaces of Blockchain, Exchanges and Gaming/NFTs.
